## My Job

My job is called an 'Educational Psychologist' (EP) but feel free to call me Anisa-Ree or Anisa. I work with children and young people to help them with their feelings, thinking, learning and friendships.

I might talk to you, talk to the adults at school and home who know you best, spend some time in your lessons to see what school is like for you, or do some activities with you to find out more about you.

It's helpful to share this information with the adults who know you best to plan a way to make things better.

## The things we might do together...

Talk about things in school and at home that are important to you

Play some games together

Do some drawing about things that are important to you

Do some questionnaires together

Do some thinking, writing or other work together

I look forward to meeting you! See you soon!
